Cancer Research Institute 2024 Award Gala

var addthis_share = { templates: { twitter: " " } }

Mark Anderson, MD, PhD accepts the prestigious 2024 William B. Coley Award for Distinguished Research in Basic and Tumor Immunology, which recognizes the groundbreaking discoveries in immune tolerance, self-antigen presentation, and the crucial role of AIRE in preventing autoimmunity that he and Christophe Benoist, MD, PhD, and Diane Mathis, PhD made at Harvard.
