```

This year's UCSF Diabetes Academy, hosted by UCSF Foundation, met virtually on October 6, 2021, uniting clinicians and scientists from across UCSF campuses to share the latest advances in diabetes research and care. Moderated by **Dan Lowenstein MD**, Executive Vice Chancellor and Provost, and paneled by **Qizhi Tang PhD**, Professor, UCSF Diabetes Center and Division of Transplant Surgery; **Julie Sneddon PhD**, Assistant Professor, UCSF Diabetes Center, Department of Cell and Tissue Biology, and Broad Center of Regeneration Medicine and Stem Cell Research; and **Allison Reed MD**, Associate Clinical Professor, UCSF Division of Pediatric Endocrinology.
